

W.E.D. / WNWIT G.

- Weathering - breaking down of rock into smaller parts (sediments)
- erosion - movement of sediments from one place to another
- deposition - the laying down of sediments.
- agents of W.E.D. -
 - agents are things that cause W.E.D.
 - WIND - weathering, erosion
 - WATER - weathering, erosion
 - WAVES - weathering, erosion
 - ICE - weathering, erosion
 - GRAVITY - erosion (landslides),
deposition
