

Left side (OUTPUT)	Right side (INPUT)
<p>The left page demonstrates YOUR understanding of the information on the right side page. You work with the input and interact with the information in creative, unique and individual ways. The left side helps focus your attention and guides your learning of the science content and concepts.</p> <p>What goes on the left side? OUTPUT goes on the left side!</p> <ul style="list-style-type: none"> • Things you are doing without teacher direction. • Even numbered pages • Title & sub-titles <p>Concept maps Venn Diagrams Pictures Drawings Diagrams Writing Prompts Songs Self Reflections Questions Foldables Lab activities (Data & Conclusion)</p>	<p>Science interactive notebooks are used to help you learn and remember important scientific concepts. Why do they work? This notebook style uses both the right and left-brain hemispheres to help you sort, categorize, remember and creatively interact with the new knowledge you are gaining.</p> <p>What goes on the right side? INPUT goes on the right side!</p> <ul style="list-style-type: none"> • Anything done with the teacher • Odd numbered pages • Title & sub-titles <p>Notes Lab activities (Problem, Hyp., Materials, & Procedure) Foldables Worksheets Questions Readings Summaries</p>
